In 1997, Christopher Goodwin & Associates prepared a HARP plan, which included an MIHP form evaluating the entire Naval Surface Warfare Center -- Carderock Division (NSWCCD) for inclusion in the National Register of Historic Places for all buildings built through 1958. The 1958 cut-off was chosen because buildings of that era met the Criteria Consideration G, Properties that have achieved significance within the last fifty years. The Trust agreed in June 1998 that these resources could be considered as an historic district known as the Naval Surface Warfare Center -- Carderock Division Historic District (MIHP #M:29-52). Although the inventory identified many new resources, the centerpiece of the district is the David Taylor Model Basin Historic Site (MIHP #M:29-47), which was listed in the National Register in 1985. The entire NSWCCD Historic District is eligible for the National Register, as an example of a Military Research and Design Facility under Criteria A and C, as well as under Criteria Consideration G.

The Navy wishes to demolish five buildings, Buildings 115, 123, 132, 144 and 153, because they are unused, contaminated by chemicals, or because the resources which they support have already been removed. We again concur that these are contributing historic resources and that their demolition constitutes an adverse effect on the historic district as a whole.
